

Enacted by the General Assembly in 2016 and administered by my office, Safe at Home is an address confidentiality program that helps victims of domestic violence, human trafficking, stalking, rape and sexual battery shield their personal information from public record.

This program provides abuse victims with a safe and secure way to participate in our democracy with ease.

Safe at Home is not intended to take the place of a safety plan, but rather is only part of a larger overall safety plan that victims should develop with an advocate.

Enrolling in Safe at Home does not automatically shield a program participant's address from public records.

A program participant's mail may be delayed several days.

A program participant with a confidential voter registration record should vote only by absentee ballot by mail.

A program participant must notify Safe at Home of an update to their information within 30 days of a change.

Certification lasts for four years. Program participants who are still eligible may submit an application for re-certification.

Ohio Secretary of State

WHAT

IS SAFE AT HOME?

Safe at Home (SAH) is an address confidentiality program that provides the following services:

Substitute Address

Safe at Home will assign program participants a substitute address. A program participant may request that a governmental entity use that address. A state of Ohio governmental entity must accept the substitute address at the program participant's request. A program participant may also request that a private entity use the substitute address, but the law does not require a private entity to accept it.

Mail Forwarding

Safe at Home will forward all qualifying mail to each program participant every day that the Secretary of State's office is open.

Confidential Voter Registration

Safe at Home program participants may register to vote with a confidential voter registration record. The registration information of a program participant with a confidential voter registration record will not be accessible to the public.

WHO

MAY PARTICIPATE IN SAFE AT HOME?

An individual who is a victim of:

- domestic violence
- stalking
- human trafficking
- rape
- sexual battery
- or
- members of the household of a victim of one of the above offenses.

Safe at Home will not be as effective if the person that a program participant fears knows or could know where the program participant lives. The program is most effective when the program participant has just moved or is going to move in the immediate future.

Safe at Home is not:

- A witness protection program.
- Capable of shielding a program participant from legal obligations.
- A complete safety plan.

HOW

DO I APPLY FOR SAFE AT HOME?

1. Find an Application Assistant certified by the Secretary of State's office:
www.SafeatHomeOhio.com
614-995-2255
2. Visit an Application Assistant and complete an application, and return it to the Safe at Home office at:

Ohio Secretary of State
P.O. Box 16395
Columbus, OH 43216

3. You will be contacted by Safe at Home staff. If certified, you will receive a participant packet and card in the mail.
4. Begin using your new substitute address.
